SAPICI Announces allocation on HDI and IPDI derivates worldwide

Effective January 15, 2021, SAPICI informs all its customer on the allocation of HDI and IPDI derivates. The reason is direct consequence of the global extreme tensions on the main raw materials (HDI and IPDI monomer).

The following products are impacted by the allocation:

Hydrorene AW1
Hydrorene AW1 01
Hydrorene AW 4
Hydrorene AW 4 01
Hydrorene AW 5 01
Hydrorene AW 6 01
Polurene BK 1175
Polurene BK 1375
Polurene M75 (MPAX/BA/MPA)
Polurene MT 100 100 LLV
Polurene MT 100 LV
Polurene MT 100
Polurene MT90
Polurene MT75
Polurene OK K
Polurene OKD
Polurene OKD EA
Polurene OKDS
Polurene OKHP
Polurene T70
Polurene T70 EA
Polurgreen MT 100 LLV 01
Polurgreen MT 100 LV01
Polurgreen MT100 01
Polurgreen MT 75 01
Polurgreen MT90 01
Polurgreen OK 01
Polurgreen OK 01 K
Ucoflex 630 IB
Ucopol W 708
Ucopol W 710
Ucopol W 712
Ucopol OL W 41 55 WD

This action is adopted in order to inform you about the sudden and unexpected crisis on these important raw materials.

SAPICI Sales team will do its best to keep you informed about any improvement.
